CATCH THE ACE RAFFLE

RULES OF PLAY

What is Catch the Ace:

Catch the Ace progressive lottery is a multiple draw game in which participants purchase a ticket for a chance to win:

A percentage of the proceeds from the sale of tickets from the weekly draw, and the draw winner also gets a chance to win a progressive jackpot by selecting a card from a standard deck of 52 playing cards.

How to Play:

The person who holds the winning ticket in each weekly draw has the opportunity to select one playing card from a deck of 52 playing cards. The cards will be contained in a numbered envelope, so the value of the card is not visible.

If the Ace of Spades is selected, in addition to winning the prize from the weekly draw, the person will win the progressive jackpot.

If the card selected is not the Ace of Spades, the selected card is removed from the deck and the progressive prize portion of the ticket sales for that draw is rolled over into the progressive jackpot for the next scheduled draw.

The weekly draws continue until someone selects the Ace of Spades.

Tickets are only valid for the draw for which they are purchased. Once a weekly draw is completed, the non-winning tickets are removed from the draw container. A new series of tickets will be sold for the next draw.

How the prizes are determined:

Tickets sales are limited to 350 per week.

20% of event ticket sales will be awarded to the bearer of the winning ticket at each weekly draw.

30% of event ticket sales will be allocated to the progressive jackpot.

50% of event ticket sales will be retained by the licensee.
